## WE PROVIDE WASTE MANAGEMENT SERVICES

A&D Environmental Services has the skills and expertise to provide the secure management of hazardous, industrial, and non-hazardous waste. We offer a full range of services - from sampling and identification to disposal - and deliver them all with a focus on value, effectiveness and responsiveness.

**Advanced non-hazardous solidification and disposal.** A&D uses advanced techniques to handle non-hazardous material, including bulk solidification, blending, and recycling. Our stabilization units are protected from the elements, operate year-round, and can accommodate more than 400 tons of material daily.

**Hazardous Waste Disposal.** A&D provides complete hazardous waste services for jobs ranging from small quantities to full truck loads. This includes ensuring proper manifesting and transportation of hazardous waste to permitted treatment, storage and disposal facilities in the United States and Canada.

A&D's wide range of capabilities ensure that you get all of your waste management services from one provider.

### We Provide:

- Waste sampling, lab analysis, identification and classification
- Lab pack services, including identification, segregation, packaging and transportation
- Hazardous and non-hazardous waste removal and disposal
- Non-hazardous waste solidification and composting
- Biohazard services
- Mercury cleanup at schools, hospitals, government and industrial facilities
- eWaste and universal waste management including recycling
- Industrial by-product management for plating operations
- 10-day hazardous waste transfer facilities

Rely on A&D for your waste management needs so that you can focus on what's important to you, your business. Give us a call today at 800-434-7750.
